## Work Experience

### Web Developer

Agronet Software | Pune

Aug 2022 - Jul 2023

- Develop and maintain web applications using C#, ASP.NET, and other relevant technologies.
- Collaborate with cross-functional teams to analyze system requirements and design solutions.
- Implement and maintain responsive web interfaces using HTML, CSS, Javascript, React.
- Write clean, efficient, and well-documented code.
- Work in an agile environment, following best practices for software development.

## Projects

### 1. Dairy Shop

Mar 2023 - Jul 2023

- Created a dynamic and user-friendly Dairy Shop website to showcase and sell dairy products.
- The website aims to provide consumers with an engaging online shopping experience while highlighting the freshness and quality of products offered by the dairy farm.
- Technologies Used : HTML5, CSS3, Javascript, C#, React.

### 2. VetSciJobs

Dec 2022 - Mar 2023

- Developed a comprehensive veterinary science job website to connect job seekers and employers in the veterinary field.
- The platform aims to provide a user-friendly experience for veterinary professionals looking for employment opportunities and employers looking to recruit top talent.
- Technologies Used : HTML5, CSS3, Javascript, C#, React.

### 3. Pharma Online Store

Sep 2022 - Dec 2022

- Developed a robust and user-friendly online medical store website that offers customers a wide range of medical products and supplies.
- The website aims to provide a seamless online shopping experience for users looking for pharmaceuticals, medical devices and healthcare essentials.
- Technologies Used : HTML5, CSS3, Javascript, C#.
