### **Dr.K.P.M.V High School**

SSC – 2012 – 79.40%

## WORK EXPERIENCE

---

➤ April 2019 – Present: **Capita India Pvt. Ltd., Pune** as **Software Consultant**

### 1. UNIT-e (Capita)

**Role:** Application Developer

**Business Domain:** Education

#### Environment:

ASP.NET MVC, C#, HTML, .NET Framework 4.6.2, Visual Studio 2019, SQL Server 2017, Oracle, TFS, Windows Services, Azure DevOps.

#### Details:

UNIT-e is an umbrella term used for a range of software that Capita Education Services produces for universities and colleges. UNIT-e provides the open architecture, enabling unparalleled inter-operability. The core set of modules can be configured to meet an institutions specific needs with optional modules.

The UNIT-e system consists of many different applications (e.g. software to record student records, software to record register marks and so on). UNIT-e Web API provides colleges, work-based learning organizations, HE institutions and local authorities with the appropriate framework to interface with our MIS environment. Working with the latest RESTful application programming interfaces (APIs), UNIT-e Web API provides seamless connectivity to other systems. RESTful APIs provide a simple yet powerful interface for interacting with UNIT-e, giving institutions the ability to read from and write data back into the UNIT-e database securely.

It's possible to link these different elements of UNIT-e together to create a 'suite' of software that fits the requirements of institution.

#### Responsibilities:

Requirement Analysis, Design, Implementation, Issue fixing, Unit Testing, Maintenance and Support, Co-ordination with PO's.

## STRENGTHS

---
