## 👤 PROFILE

Versatile and results-driven **Software Developer & Technical Support Engineer** with a strong foundation in software development, system troubleshooting, and technical support. Experienced in diagnosing and resolving complex hardware, software, and network-related issues while also developing and optimizing scalable applications.

Started my career as an **Associate Engineer at Brillio**, focusing on **software development**, where I gained hands-on experience in coding, debugging, and building efficient applications. Later, I transitioned into a **Technical Support Engineer role at Fermiyon Technologies**, where I enhanced system performance, resolved critical technical issues, and provided end-to-end support for enterprise applications.

Passionate about solving technical challenges, optimizing workflows, and contributing to innovative solutions.
