| • Database | MySQL, PostgreSQL |
| • API & Services | RESTful APIs, Microservices |
| • Tools | Maven, JIRA, Git, GitHub, Eclipse |
| • Soft Skills | Cross-Functional Collaboration, Problem-Solving, Continuous Improvement |

WORK EXPERIENCE

Assistant Manager

_VOIS

August 2021

Pune, India

- Prepared and deployed enterprise-grade application using Java 8, Spring Boot, and microservices, responsible for 70% of mission-critical modules.
- Designed REST APIs with precision, ensuring smooth communication between services, enhancing scalability by 40%.
- Seasoned security with Spring Security, reducing vulnerabilities by 30% and maintaining a secure application ecosystem.
- Integrated Kafka, ensuring real-time streaming for large-scale applications, improving responsiveness by 50%.
- Revamped legacy code and boosted performance by 20%, while keeping the codebase fresh and maintainable.
- Whipped up backend services in a microservice architecture using Spring Boot and Hibernate, contributing to 60% of the company's client-facing features.
- Developed and optimized Kafka-based scalable applications for real-time data processing.
- Implemented new features and resolved issues in various Java applications, ensuring compliance with business and technical requirements.
- Participated in the entire SDLC process, from preparing the requirements and delivering the final deployment.
- Resolved platform defects, debugged issues, and enhanced performance by analyzing server logs.
- Led the L&D team as GSL level head, fostering outstanding contributions and increasing employee engagement by 20%.

EDUCATION

Bachelor of Engineering (Electronics and Telecommunication)

Pune Institute of Computer Technology (PICT)

2018 - 2021

CGPA: 9.15

Diploma in Electronics and Telecommunication

ICRE College, Kolhapur

2015 - 2018

94.95

PERSONAL PROJECTS

Real-Time Messaging System using Spring Boot, Kafka, and Spring Security

- Developed scalable and resilient microservices using Java and Spring Cloud for managing inventory in real-time.
- Integrated Kafka for message streaming and ensured seamless communication between microservices.
- Performed unit and integration testing to validate service reliability.

E-Commerce Application with Microservices

- Built an e-commerce platform with Spring Boot, MySQL, and microservices, focusing on modular and scalable services.
- Integrated a MySQL database and deployed on Kubernetes, achieving 99.5% uptime while handling high traffic.
