

Gogul Balsubraminan

FULL STACK DEVELOPER

Profile

Motivated MERN stack developer and fresher with a certification in the MERN stack. Skilled in building dynamic web apps using MongoDB, Express, React, and Node.js. Passionate about coding, problem-solving, and eager to learn and grow through real-world projects.

Education

Higher Secondary Education, PSG Saarvajana Higher Secondary School, Coimbatore

JUNE 2018 – MAY 2020

Bachelor of Science, Dr NGP Arts and Science College, Coimbatore

JULY 2020 – JUNE 2023

Projects

Food App - MERN

- A dynamic food app built using the MERN stack (MongoDB, Express, React, Node.js) that handles user authentication, product management, and cart functionality. Key features include JWT-based login/signup, category and product display, cart management, and a checkout system with discount logic.
- Software Tools: Mongoose for database management, bcrypt for password hashing, Axios for API calls, and React-Bootstrap for responsive design.

AI Chat App

- Design and implement an interactive chat-bot using GEMINI AI api key using react and tailwind css for styling.
- Software Tools - Axios , React ,Bootstrap CSS

Weather App

- Built a JavaScript application to fetch and display current weather data from the OpenWeatherMap API. Features include city input, temperature and humidity display, weather description, and error handling
- Software Tools - Bootstrap CSS , JavaScript

Stop Watch

- Developed a JavaScript-based stopwatch with start, stop, and reset functions. Displays elapsed time in hours, minutes, seconds, and milliseconds. Utilizes JavaScript for time management and DOM manipulation.
- Software Tools - Java Script (DOM manipulation)

Courses

Java, Spoken Tutorial ,IIT Bombay

Full Stack Development(MERN), Imarticus
