Masai School

Fakruddin Ali Ahmed

Data Analyst

PROFESSIONAL SUMMARY

Accomplished Data Analyst with expertise in SQL, Python, and data visualization tools such as Tableau and Power BI. Possesses strong problem-solving and excellent communication skills. Adept at using Generative AI for deriving insights and quick learning of new technology stacks to deliver impactful business recommendations.

WORK EXPERIENCE

DesignWay

Frontend Developer Intern
January 2024 - April 2024

Job responsibilities:

- Collaborated effectively with a team to develop a social media content generator using the ChatGPT API, showcasing strong teamwork and technical skills.
- Demonstrated ability to interpret complex requirements and transform them into a functional frontend application, emphasizing problem-solving and attention to detail.

PROJECTS

1. Bank term deposit Prediction |

Python | Machine Learning | Power BI

- Developed machine learning models to predict client subscriptions using customer demographics and campaign data.
- Utilized Python for data analysis, Power BI for creating visualizations, and delivered data-driven insights.
- Collaborated in a team of 4, contributing significantly to the modeling and interpretation of results.

2. Datacrafters |

Python | SQL | Power BI

- Analyzed GitHub user activity, repository, and language data to extract insights using Python, SQL, and Power BI.
- Conducted data cleaning and visualization, adding key insights to Power BI dashboards.
- Contributed as a high member of a 4-member team, ensuring seamless integration of SQL and Power BI.
