## Education

**B. Tech in Computer Science Engineering**  
Rajiv Gandhi University of Knowledge Technologies  
June 2020 - July 2024

## Certifications

**Power BI Certification** [🔗](#)  
*Skill Nation, 2024*

Completed a comprehensive training program in Power BI, focusing on data visualization, dashboard creation, and data modeling. Gained hands-on experience with real-world projects, enhancing skills in transforming raw data into actionable insights.

# SRI MAHALAKSHMI MAREEDU

## Business Analyst

## Professional Summary

Adaptable business analyst with expertise in SQL, Excel, and Generative AI. Demonstrates strong analytical and problem-solving skills while effectively using data to drive strategic decisions. Excels in creating impactful reports and dashboards, aligning data with business objectives, and embracing emerging technologies swiftly.

## Projects

### Sales Dashboard [Github Repo Link](#)

MySQL Python Power BI Pandas

- Developed an interactive sales dashboard using Power BI for real-time insights into sales performance.
- Enabled stakeholders to visualize sales trends and monitor performance metrics.
- Ensured user-friendly navigation and interactivity for effective decision-making.
- Conducted regular updates and maintenance for data accuracy and relevance.

### E-Commerce Dashboard

[Live Demo](#) [Github Repo](#)  
[Link](#) [Link](#)

MySQL Python Streamlit

- Analyzed customer purchasing patterns, product trends, and payment behaviors using e-commerce dataset.
- Performed data cleaning, manipulation, and visualization for deriving key insights.
- Developed and deployed an interactive dashboard using Streamlit.
- Provided actionable insights for optimizing sales strategies and enhancing business performance.
