Advance Web Development 
Coding Ninjas
The Advanced Web Development course covers React.js focusing on scalable web applications.

Web Development 
TeachNook

Adarsh Bhardwaj

Professional Summary

Dynamic Full Stack Web Developer skilled in MERN stack and adept in designing efficient APIs with Node.js and Express.js. Proficient in React.js, MongoDB, and promoting seamless frontend-backend integration. Excels in rapid learning, including leveraging Generative AI. Adept at enhancing workflows and maintaining software excellence.

Projects

Multimart Ecommerce App [Github Repo Link](#)

React Express.js MongoDB Node.js

- Developed a full-fledged ecommerce platform using the MERN stack, providing both frontend and backend capabilities.
- Collaborated in a team to implement efficient server-side APIs with Node.js and Express.js, handling user authentication, product catalog management, and order processing.
- Debugged, tested, and optimized the application to ensure high performance and stability.

Weather Application [Github Repo Link](#)

HTML5 CSS3 JavaScript

- Built a simple weather application using HTML5, CSS3, and JavaScript, focusing on responsive design.
- Utilized JavaScript to consume weather data from public APIs, enabling real-time weather updates.
- Implemented clean and minimalistic UI design for an improved user experience.
