PERSONAL PROJECTS

Crypto Tracker (04/2023 - 04/2023)

- Developed a real-time cryptocurrency tracking application using CoinMarketCap API. Delivered dynamic insights into pricing, trends, and market sentiment. Demonstrated proficiency in API integration, data visualization, and responsive design for mobile platforms.

Shopee (E-commerce) (02/2024 - 04/2024)

- A sleek eCommerce app using MVVM architecture, Glide for image loading, Dagger for dependency injection, and Firebase for authentication and real-time database. Delivered seamless browsing, ordering, and secure transactions. Demonstrated proficiency in modern Android development and user-centric design.

Mobile Price Prediction (01/2023 - 02/2023)

- Developed a Python-based machine learning model to predict mobile device prices. Utilized advanced algorithms for accurate forecasting, showcasing expertise in data preprocessing and model evaluation.

CERTIFICATES

Mobile Application using Android (09/2022 - 04/2023)

CLF-C02: AWS Certified Cloud Practitioner (01/2024 - 03/2024)
