

Dikshansh Zade

.NET Developer

I'm a passionate .NET developer with around 3 years of hands-on experience in crafting robust and scalable solutions. My journey in the .NET ecosystem has been fueled by a relentless curiosity for cutting-edge technologies and a commitment to delivering high-quality software. From building sleek ASP.NET web applications to diving into the intricacies of C# and SQL, I thrive on turning complex problems into elegant, efficient code.

WORK EXPERIENCE

Custom Software Development Analyst Accenture

08/2023 - Present

Pune

Achievements/Tasks

- **Web Application Development:** Led the development of multiple ASP.NET web applications from concept to deployment, ensuring a seamless user experience and responsiveness.
- **Back-End Solutions:** Architected and deployed robust back-end solutions using C# and the .NET framework, resulting in optimized performance and scalability for future growth.
- **Code Quality and Testing:** Conducted comprehensive testing, including unit testing and integration testing, identifying and resolving bugs early in the development cycle, resulting in a 30% reduction in post-release defects.
- **Continuous Learning:** Proactively pursued continuous learning, remaining updated with the latest technologies and trends in the .NET ecosystem. Implemented new tools and methodologies, enhancing development processes and efficiency by 20%.

Application Development Associate Accenture

07/2021 - 07/2023

Pune

Achievements/Tasks

- **Duckcreek development(2021-22)** : Building frontend functionalities using Author tool
- **APIs and Integration(2021-22)** : Working with well-documented APIs that allow seamless integration with other systems and services. These APIs enable to extend and enhance the functionality of Duck Creek Policy systems.
- **Testing and Debugging** : Validating changes efficiently and identify and fix issues quickly.
