## EDUCATION

### Data Analysis

Masai, Bengaluru  
June 2024-present

### Computer Science and Engineering

Bhagalpur College Of Engineering  
May 2019 - June 2023

## TECHNICAL SKILLS

Data visualization | SQL | Python | Data Cleaning | Power BI | Data Transformation | Pandas, NumPy, Matplotlib | Exploratory Data Analysis (EDA)

## SOFT SKILLS

- Problem Solving
- Attention to Detail
- Teamwork
- Effective Communication

## INTERESTS

- Reading Business Books
- Watching Friends and GOT

## CERTIFICATIONS

SQL (Intermediate) Certificate  
HackerRank  
IBM Introduction to Data Engineering  
Coursera

## PROFESSIONAL SUMMARY

Insightful Data Analyst with expertise in SQL, Python, Power BI, and Excel. Proficient in generating data-based insights through exploratory data analysis and visualization. Capable of leveraging Generative AI and rapidly learning new tech stacks. Adept at enhancing data quality and driving business growth.

## WORK EXPERIENCE

JiBe Data Analytics Services | Project Engineer  
Private Limited  
April 2023 - July 2023

### Job responsibilities:

- Cleaned and transformed large datasets in Excel, enhancing data quality and easing analysis.
- Collaborated with interdisciplinary teams to meet data analysis needs, improving process flow and reporting accuracy.

## PROJECTS

### 1. Netflix Data Analysis Using SQL | SQL | MySQL Workbench

- Extracted and analyzed a large dataset from Netflix using complex SQL queries.
- Identified viewing trends and patterns which were compiled into detailed reports.
- Created insights that helped drive business decisions for content creation and marketing.

### 2. Olympics Exploratory Data Analysis (EDA) With Streamlit Dashboard

- Developed an interactive Streamlit dashboard to visualize complex Olympic datasets, enhancing stakeholder understanding of key insights.
- Collected, cleaned, and analyzed historical Olympics data to identify significant trends and patterns.
- Created comprehensive visualizations and reports to effectively communicate analysis results to diverse audiences.
- Collaborated with stakeholders to translate business needs into data-driven solutions, supporting strategic decision-making.
