Institution : Fuscus Matriculation Higher Secondary School, Madurai.	Institution : Fuscus Matriculation higher Secondary School, Madurai.	University : Anna University. Institution : Velammal College Of Engineering And Technology, Madurai.

PROJECTS

Cotton Plant Disease Prediction Using Deep Learning

May 2024

The main goal of the model is to detect the disease of the cotton plant and provide the cure of the plant . The CNN model is used to predict the plant is diseased or based on spot of the leaves. The proposed research work applies the concept of ensemble learning , that is implemented through deep learning algorithm.
