EDUCATION

- Software Development Engineer in Tester**
Masai School
August 2024-present
- Bachelor's of Computer Applications**
Maa Shakumbhari University, Saharanpur
July 2022 - June 2025
- 12th Graduate**
City Public Inter College
Roorkee
April 2019 - March 2020

TECHNICAL SKILLS

- Selenium | Postman | Cypress | JavaScript | Java | Jira | Cucumber

SOFT SKILLS

- Time Management | Teamwork | Problem Solving | Effective Communication

ACHIEVEMENTS

- Group leader, National Cadet Corps(NCC), 84 UK Battalion NCC, Landhaura

PROFESSIONAL SUMMARY

Dynamic SDET/QA specialist with expertise in test automation and manual testing, proficient with tools like Selenium and Postman. Skilled in identifying algorithmic errors using Generative AI. Quick learner of new technologies such as JavaScript. Strong problem-solving and teamwork skills, ensuring high-quality software delivery.

PROJECTS

- 1. Demoblaze Website Testing(Automation) | Selenium | Cucumber | Java | POM**
 - Developed and executed automated test scenarios for key features using the Selenium WebDriver and Cucumber framework.
 - Designed test cases to identify algorithmic and logic errors, focusing on login, homepage, and cart functionalities.
 - Documented test results and reported issues with detailed steps for reproducing bugs.
- 2. Puma Cypress e2e Testing | JavaScript | Cypress | JSON | POM**
 - Implemented Page Object Model (POM) to enhance test script reusability and maintainability.
 - Conducted data-driven testing using fixtures to support various test scenarios.
 - Demonstrated strong problem-solving skills by designing test scenarios for logic-intensive components.
- 3. Clinic Cases Website Testing | Manual Testing**
 - Designed and executed comprehensive test scenarios for clinic management website, focusing on user interface and functionality.
 - Produced clear and detailed documentation of issues with steps for reproduction to aid in bug resolution.
 - Played a key role in developing test cases, improving overall testing efficiency and coverage.
