WORK EXPERIENCE

EVIDEN, India

Associate Consultant

DEC 2023 – PRESENT

FULL STACK DEVELOPER

- Led the migration of applications to Google Cloud Platform (GCP), enhancing scalability and performance.
- Development and maintaining Spring Batch applications using Spring Tool Suite (STS).
- Conducted daily monitoring of batch processes, successfully resolving 95% of issues in both development and production environments. Implemented client-driven web application changes for efficient demand and capacity planning.
- Proactively optimized code during migrations, addressing 90% of bugs for a seamless transition.
- Utilized Kubernetes for container orchestration and deployment of Microservices.
- Managed GCP maintenance tasks, ensuring high availability and reliability of services.
- Collaborated with cross-functional teams to define and implement technical solutions.

Associate Consultant

DEC 2022 – Sept 2023

BACKEND DEVELOPER

- Conducted API Testing using JAVA, Spring Boot, Postman and Thread Debugging, resulting in a reduction in critical defects and ensuring the robustness of the API functionality.
- Demonstrated proficiency in identifying and resolving issues related to API functionality and seamless integration with the Spring Boot framework, leading to a 30% improvement in overall system stability.
- Ensured the uninterrupted operation of the Application's API services, achieving an impressive 99.9% uptime and enhancing user satisfaction.
- Employed Spring Boot and Microservices RESTAPI for API creation, resulting in a 40% increase in application scalability and responsiveness, effectively accommodating a growing user base.
- Utilized Git for version control, enabling efficient tracking of code changes and fostering seamless collaboration among team members, leading to a 25% reduction in development cycle time and enhanced code quality.

Associate Consultant

DEC 2021 – SEPT 2022

FRONTEND DEVELOPER

- Spearheaded the development of diverse and user-centric Responsive Webpages, resulting in a 20% increase in website traffic and a significant improvement in overall user engagement.
- Implemented and mastered the use of CSS Bootstrap framework to craft visually appealing and highly functional Webpages, leading to a 30% decrease in page loading time and enhancing the website's performance.
- Successfully adopted and applied Angular for building dynamic single-page applications, effectively reducing development time by 25% and delivering a seamless user experience.
- Utilized Jira as a robust project management tool, ensuring streamlined workflow, enhanced collaboration, and timely completion of tasks, resulting in a 15% increase in project delivery efficiency.
- Leveraged Git for version control, enabling efficient tracking of code changes and facilitating seamless collaboration among team members, which led to a 40% reduction in code conflicts and improved overall code quality.

EDUCATION

PUNE INSTITUTE OF COMPUTER TECHNOLOGY - PUNE

2017-2021

Bachelor of Engineering, Electronics and Telecommunications; CGPA: 7.68 /10

SKILLS & CERTIFICATIONS

Technical: JAVA, MYSQL, SPRING BOOT, MICROSERVICES, RESTAPI, HTML, CSS, ANGULAR, DYNATRACE

Languages: Fluent in English

Certifications & Training: JAVA NEW FEATURES, Microservices using Spring Boot, (Atos Internal), HTML, CSS (Coursera), Associate Cloud Engineer (Google Cloud Certified)
