WORK EXPERIENCE

GenAI - Web Developer SDE

Capgemini July 2023 -- Present

- Played a pivotal role in building a crucial component supporting healthcare initiatives of the Maharashtra Government. Facilitated the work of Auxiliary Nurse Midwives (ANM) and Asha (nurses) by ensuring efficient coverage of health services in every village.
- Key contributor in assessing and optimizing Codewishperer's efficiency through the development of a comprehensive full-stack application. Utilized a technology stack comprising React JS, Node.js, React Native, and PostgreSQL.
- Spearheaded AI-driven enhancements in web development projects, leveraging tools like Codewishperer for efficient testing and code optimization.
- Led the development of the Maatr Project, showcasing expertise in seamlessly integrating AI algorithms to achieve project objectives and improve overall system performance.
- Collaborated with cross-functional teams, including AI specialists, to successfully implement and test cutting-edge solutions for web applications.
- Demonstrated a commitment to continuous learning and professional development, actively participating in discussions and staying updated with the latest advancements in web development and AI technologies.

JAVA Full Stack Developer Intern

Capgemini March - May 2023

- Successfully integrated React.js components with Java services, demonstrating a comprehensive understanding of full-stack development.
- Collaborated with team members, including senior developers, to ensure seamless integration of React.js and Java components, fostering a cohesive development process

CERTIFICATION

- AWS Cloud Practioner Sep 2023 - Sep 2026
- MERN Stack Developer May - June 2021
