PROJECT DETAILS:

1. Technavio.com (E-Commerce Platform)

Technavio offers a vast collection of reports on various technologies. You can search for specific terms or explore reports by industry. Use filters to refine your results by factors like publication date, price, or name. Choose the license that suits your needs, add the report to your cart, and proceed to checkout. Once you've entered your payment details, the report will be delivered to your inbox.

Skills Used : HTML, CSS, JavaScript, JQuery and PHP Laravel

2. Myoitc.com

Myoitc is a workforce and care management technology platform designed to meet the unique operational needs of home and community based care services and organizations.

Skills Used : HTML, CSS, JavaScript, JQuery and PHP Laravel

3. AL Tadawi Specialty Hospital

Implemented a hospital appointment system project that streamlined scheduling and integrated payment processing, improving efficiency and accuracy in patient transactions.

Skills Used : MERN Stack

4. Momondo

momondo searches hundreds of travel sites to show you your options and let you pick what works best for your trip. Track prices, set a budget, build your itinerary and more.

Skills Used: HTML, CSS, JavaScript, JQuery and PHP CodeIgniter

5. Bizvibe

BizVibe has redefined the concept of B2B networking by helping buyers select the right supplier. Our platform is designed to help companies generate leads, shortlist suppliers, request for proposals, and identify global companies.

Skill Used: HTML, CSS, JavaScript and PHP Laravel

6. RAK Hospital

RAK Hospital has been a leader in delivering exceptional healthcare services. As the premier institution of the Arabian Healthcare Group, our expertise extends across healthcare, laboratory services, education, and infrastructure.

Skills Used: MERN Stack
