Bitcode Technologies - Trainee Android
Bitcode Technologies – (Internship – November 2023 – April 2024)
Trainee Android Developer

Project Experience

App Title :- Find Roomies App

App Description –

- Technology : Kotlin, MVVM, Retrofit, Activity/Fragment, Recycler View, Adapter.
- "Find Roomies" is a user-friendly mobile app where individuals can post about their need for roommates or search for available rooms. Using the MVVM architecture, the app efficiently manages data flow and interactions. It seamlessly integrates APIs to fetch relevant information, allowing users to connect with potential roommates or find suitable accommodation hassle-free.

Project Experience

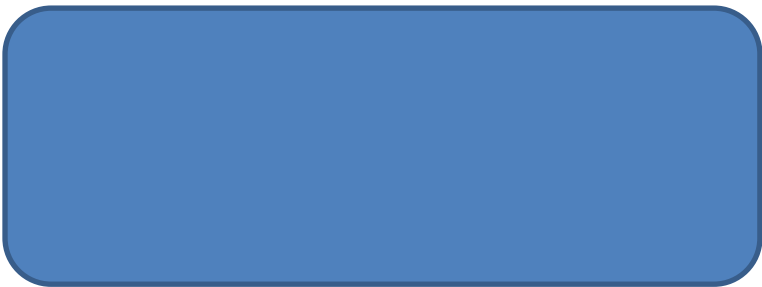

App Title :- Expense Manager

App Description –

- **Technology :** Kotlin, MVVM, Room Database, Activity/Fragment, Recycler View, Adapter, Entity, Dao.
- The Expense Manager app helps users track and manage their expenses efficiently. It allows users to add, edit, delete, and view transactions easily, all powered by a Room database for seamless data management.

Education :

Course	Institute/College	Year of passing	Percentage
