8806997139

.NET FULLSTACK DEVELOPER

npawar7139@gmail.com

Bhokardan dist. Jalna Maharashtra

## SUMMARY

Experienced Full Stack Developer with 2+ years of hands-on experience in software development. Specializes in .NET and Angular frameworks, creating user-friendly applications from start to finish. Skilled in implementing secure logins, integrating payments, and making ecommerce sites run smoothly. Proficient in C#, ASP.NET, ASP.NET MVC, .NET CORE, HTML/CSS, JavaScript, MySQL.

## EDUCATION

• CLASS XII	• GRADUATION
<b>SATYASHODHAK COLLEGE</b>	<b>VASANTRAO NAIK COLLEGE</b>
Medium : Science	Course : BA ( Political
Year : 2019	Science )
Percentage : 77.48%	Year : 2022
	Percentage : 73.33%

## SKILLS

- .Net
- C#
- Angular
- HTML-CSS
- JavaScript
- SQL

## Experience - Deegee Software Private Limited

### Software Design Engineer (SDE -I)

1 January 2023 - Present

#### PROJECT (S):-

##### EQUINE - Horse Riding Service Management :

- Developed an application to manage horse riding bookings, payments, and invoicing using .NET for backend and Angular for frontend.
- Implemented IdentityServer4 for secure user authentication and used OIDC Client for managing user sessions.
- Integrated Stripe for payment processing, handling subscriptions and real-time transactions.
- Configured SMTP for email notifications, including booking confirmations and invoice dispatches.
- Created a robust invoice generation system that automatically sends payment receipts to users.

##### CURVATURE APPLICATION HARDWARE RESELLER (SUPPORT) :

- Identified and resolved critical client issues in hardware testing applications.
- Unified seven internal applications into a cohesive platform for comprehensive hardware testing.

## SOFTWARE TRAINEE

6 jun 2022 To 31 December 2022

### Project : Trend Shopping Application

- Led the full-stack development of an e-commerce platform using Angular for the front end and .NET Core for the back end.
- Implemented JWT-based authentication to ensure secure user and admin access.
- Enhanced user engagement by integrating SMTP for email notifications and communications.
- Strengthened application security with OTP verification during user login and order processing.
- Applied CQRS (Command Query Responsibility Segregation) pattern to optimize performance and scalability.
- Developed and integrated a payment gateway, enabling secure and efficient transaction processing.
