SUMMARY

11+ years experience as a Full stack developer who enjoys the challenges of working with cutting edge platforms such as PHP,Vue-js,React.js,React Native,Nodejs. My expertise includes custom web application development using Laravel, cakephp and react js(Redux, Nodejs) and in Mobile application development using React native.

I have good organizational skills and can easily "switch gears" between platforms, languages, and development environments. I'm a well rounded generalist who can bring immediate value to an organization while quickly learning the particular technology and application domain at hand.

QUALIFICATION

- B.Tech. 2007-2011 in Information Technology from Arya Group of Colleges.
