FAST DELIVERIES

Our efficient delivery services ensure happier clients and consumers, and improved brand loyalty

TECH SUPPORT

Our technology driven platform offers high-end tech and customer support to help grow your business seamlessly

SERVICES

Delhivery's aim is to build the operating system for commerce in India. We provide parcel transportation, warehousing, freight, reverse logistics, cross-border and technology services to over 10000 customers including all of India's largest e-commerce companies and leading enterprises. Our supply chain platform and logistics operations bring flexibility, breadth, efficiency and innovation to our customers' supply chain and logistics operations. Our operations, infrastructure and technology enable our customers to transact with us and our partners at the lowest costs.

WHO ARE WE?

Since its inception in 2011, Delhivery has become India's leading supply chain services company. Our vision is to become the operating system for commerce in India, through a combination of world-class infrastructure, logistics operations of the highest quality and cutting-edge engineering and technology capabilities.

OUR MISSION

SMALL WORLD

Delhivery provides products and services with the aim of building trust and improving the lives of consumers, small businesses, enterprises and our growing team of employees and partners. We are disrupting India's logistics industry through our proprietary network design, infrastructure, partnerships, and engineering and technology capabilities. Delhivery brings unparalleled cost efficiency and pan-India reach to the businesses of over 10000 customers. We are driven by a mission to shrink time and distance, making the world a smaller place for our customers and over a billion consumers they serve.

CONSTELLATION

Constellation partners extend Delhivery's transportation network to geographies which are currently not serviced by Delhivery internal operations. As a partner, you will be expected to manage the delivery center operations and the staff in your local area. Partners may opt to provide a range of services including parcel delivery, pick-up services and partial- truckload freight pick-up and delivery services. We currently have 850+ Constellation partners successfully running 950+ delivery centers across 900+ cities.

CUSTOMER EXPERIENCES

Our clients are the heart of our business. Every package matters. Every scan matters. We're constantly looking for ways to become faster, more reliable and more efficient than yesterday.

PEOPLE DRIVEN

We're proud of our team of over 40000 people, united in our common quest towards building the operating system for commerce in India. Our people are what makes us different. We have created an equal opportunity workplace that values transparency, diversity and a culture of craftsmanship.
