OBJECTIVE

I'm a skilled Fourth-year computer engineering student with a strong coding background. Experienced in event management, I'm prepared for diverse challenges. Committed to excellence, personal growth, and continuous improvement, I value creativity and professional development. Active in the ACM student chapter as a content team member, I stay updated on the latest technology trends. With technical proficiency, event management skills, and active engagement, I'm a valuable asset for innovative, collaborative organizations.

ACHIEVEMENTS

- Secured 2nd prize in national level project competition organized by ACM RSCOE.
- Participated in Smart India Hackathon.
- Completed Google Cloud Career Practitioner (GCCP) program under GDSC RSCOE.

INTERNSHIPS

ForceArk Consulting

- Developed user-friendly interfaces with Salesforce Lightning components using the Aura framework, ensuring a smooth and intuitive experience for clients across different industries
- Implemented custom features using Apex triggers and Batch Apex in Salesforce, improving data sync with external systems for enhanced performance.

Oasis Infobyte

- During the program, I gained web development knowledge, creating a portfolio website and mastering the fundamentals of website building.

PROJECTS

3D VIRTUAL TRAIL ROOM

- Our project focuses on augmenting 3D clothing onto the user's body.
- The 3D cloth model for this project was created using the Barracuda model and Unity software.
- Group Project done by 4 members.

Co-Curricular

- I was a coordinator and part of the marketing and management team for Avinya 2023, a college-organized event that featured competitions with participation from students of various colleges.
- I also coordinated a project competition under ACM.
- I participated in project competition impetus organized by PICT.
