PROFESSIONAL SUMMARY

Results-driven SDET with strong expertise in manual and automation testing using Cypress and Selenium. Experienced in developing and executing test plans, test cases, and scripts, ensuring high-quality software through meticulous documentation. Proficient in API testing with Postman and RestAssured, constantly seeking to adapt to new tools and enhance testing methodologies.

PROJECTS

1. Hackathon Project | Automation |
Testing with Selenium & TestNG | POM | Java |Team Lead
- Led the automation testing of an e-commerce platform to verify crucial functionalities such as authentication, product search, and checkout.
 - Developed and maintained automation scripts using Selenium and TestNG with POM for efficient test design.
 - Ensured cross-browser compatibility by verifying workflows across multiple browsers.
 - Acted as team leader, assigning tasks and ensuring timely execution.
2. Bewakoof Clone Website Automation |
Testing with Cypress | Manual Testing | POM
- Automated functional testing for a e-commerce web application covering login, search, cart, wishlist, and checkout.
 - Documented critical UI bugs and worked closely with developers for their resolution.
 - Used Cypress for structured test scripts creation and applied POM for enhanced test organization.
3. MovieGate Website Manual Testing |
- Developed comprehensive Test Plan, Test Scenarios, Test Cases, and Bug Reports.
 - Conducted functional, UI/UX, regression, and compatibility testing, ensuring thorough test coverage.
 - Logged and tracked defects, collaborating with developers to ensure timely issue resolution.
