Projects

OrangeHRM

Selenium WebDriver, TestNG/JUnit, JIRA, P Postman, Microsoft Excel, IntelliJ, Cucumber, Maven, POM

- Designed and executed manual test cases for different HR modules.
- Developed Selenium WebDriver automation scripts for functional and regression testing.
- Performed cross-browser and compatibility testing to ensure system responsiveness.
- Conducted API testing using Postman to validate backend services.
- Logged and tracked defects using JIRA for efficient resolution.

Demo Blaze [Github Repo Link](#)

Selenium WebDriver, TestNG/JUnit, JIRA, P Postman, Microsoft Excel, IntelliJ, Cucumber, Maven, POM

- Designed test cases for functional and non-functional testing.
- Automated regression test cases using Selenium.
- Reported and tracked defects to improve the application's quality.
- Performed API testing to validate backend functionality.

Demo Web Shop [Github Repo Link](#)

Selenium WebDriver, TestNG/JUnit, JIRA, P Postman, Microsoft Excel, IntelliJ, Cucumber, Maven, POM

- Validated checkout and payment functionality.
- Performed cross-browser testing to ensure compatibility.
- Developed and executed automation scripts for repetitive test cases.
- Conducted API testing for order and payment workflows.

Slide Master [Github Repo Link](#)

Selenium WebDriver, TestNG/JUnit, JIRA, P Postman, Microsoft Excel, IntelliJ, Cucumber, Maven, POM

- Slide Master:

Soft Skills

Adaptability

Effective Communication

Time Management

Teamwork

Attention to Detail

Achievements

**Speaking And reading
Marathon** 

Masai School

Construct Week Project 

Masai School

Construct Week Project 

Masai School

Hackathon 

Masai School

Certifications

Web Designing & PHP 

F1 Macro Technologies (Regd).

- Conducted functional and UI testing to ensure a smooth user experience.
- Performed regression testing to identify issues.
