## PROJECTS

### Hospital Management 360

**Hospital Management 360** is a comprehensive platform designed to streamline the operations of healthcare facilities. It integrates various functions such as patient registration, appointment scheduling, billing, and medical records management into a single system. This user-friendly solution enhances communication among staff, improves patient care, and boosts overall efficiency. With real-time data access and reporting features, Hospital Management 360 helps hospitals provide better services while managing resources effectively.

Technology Used – HTML, CSS, JavaScript, MySQL  
Team Size – 4  
Period – 90 days

## OTHER ACCOMPLISHMENTS

- Certification of C Programming Language by Eduonix Learning Solutions.
- Certificate of participating in the seminar conducted on the trends and strategies adopted in Digital Marketing.
