JavaScript

React

Redux

Node.js

MongoDB

Express.js

RESTful APIs

- Collaborated with a team of 6 to develop an e-commerce platform for jewelry products using JavaScript, React, and Redux.
- Implemented the cart page with custom scrollbar functionality, enhancing user navigation.
- Designed and developed the payment page, ensuring secure and seamless transactions.
- Used Node.js and Express.js to create and optimize server-side APIs for efficient backend operations.
- Integrated MongoDB for database management, ensuring efficient data storage and retrieval.
