Abhay Khare

Frontend Developer(React)

Professional Summary

Passionate and results-driven frontend developer with a proven track record in solo and collaborative projects. A creative problem solver with a keen eye for design and effective communication skills. Ready to contribute dynamic solutions and elevate web development initiatives

Projects

Telemedicine [Live Demo Link](#) [Github Repo Link](#)

HTML CSS JavaScript GitHub

- Developed a Telemedicine website using HTML, CSS, and JavaScript, providing convenient access to pharmaceuticals, wellness products, and medical supplies.
- Designed and implemented dynamic product displays with CRUD operations and wishlist functionality for personalized curation.
- Led the development of APIs for seamless communication within the system.

Bed Bath and Beyond Clone [Live Demo Link](#) [Github Repo Link](#)

HTML JavaScript CSS

- Led the development of the cart page, enhancing user experience. Contributed to sections of the product page.
- Authored a comprehensive Readme file for clear project documentation

Experience

HCL Technologies | Senior Analyst

December 2020 - Present

- As a network security analyst at HCL Technologies, I specialize in managing firewall technologies, responding to incidents, changes, and tasks with a client-centric focus.
