OBJECTIVE

Experienced .NET Angular Developer with hands-on experience in web,Windows application. Proficient in designing, developing, and maintaining robust solutions using .NET and Angular frameworks. Skilled in translating business requirements into scalable and efficient software products. Seeking a role to leverage expertise in delivering high-quality applications and contributing to the success of team

EXPERIENCE

- Decisivedge** Pune
 - Junior Software Developer** Sept 2022 - May 2023

Developed the intricate "Healthcare Module" in CSharp, .NET Core, SQL,MVC. - Optimized RESTful/SOAP endpoints, UI views with Angular, resulting in remarkable 20% efficiency. Seamlessly integrated third-party APIs intricate CRUD operations, employing LINQ for data manipulation
- Capita** Pune
 - Graduate Engineer** Sept 2023 - Ongoing

Led the design and development of APIs for the "Education and Childcare Management System," utilizing a comprehensive tech stack including MVC, LINQ, Angular, API, .NET Framework, Entity Framework, and SQL. Enhanced UI views for the "Educational Financial End to End process," resulting in a 30% improvement in user engagement. Skillfully employed C#, WCF, Entity Framework, and OracleDB to deploy complex modules, contributing to a 40% reduction in processing time. Demonstrated proficiency in integrating cutting-edge technologies, resulting in a 25% increase in production efficiency.

EDUCATION

- Sinhgad Smt Kashibai Navale College Of Engineering** Pune
 - Bachelor of Engineering in Computer engineering; CGPA: 9.10** June. 2019 – April. 2022
- Government Polytechnic** Pune, India
 - Diploma in Computer Engineering; Perc: 77** June. 2016 – July. 2019

PROJECTS

- Healthcare Management System** : - Developed a comprehensive system for managing healthcare operations, including patient management, insurance integration, outpatient (OPD) and inpatient (IPD) departments, and pharmacy management. Utilized technologies such as C#, SQL, MVC, Angular
- Ports Logistics Optimization Platform**: - Spearheaded the development of a transport logistics optimization platform, leveraging C#, .NET Core, Angular, and advanced data analytics to streamline route planning, vehicle scheduling, and resource allocation using C#, .NET Core, Angular, PostgreSQL
- Education and Welfare Management System for Govt**: Engineered an innovative portal to support diverse community needs, Personal Education Plan including Early Year education and welfare assistance for school children , disabled children, and working parents in SaaS package using ASP.NET,Razor, JavaScript,Oracle Sql server
- SecurePay-Payment Gateway Integration** : Developed a secure payment gateway integration system for e-commerce platforms, integrating with popular payment gateways such as PayPal, Stripe, and Razorpay. Implemented using C#, Razor, WebApi, Third Party Api , Angular.

PROGRAMMING SKILLS AND CERTIFICATIONS

- Languages**: CSharp,Java, Javascript, SQL
- Technology Tools** : JavaScript/TypeScript, Angular, Node.js, Webpack, AWS, PostgreSQL, SQL Server, .NET Core, Entity Framework, .NET Framework, MVC, Web API, SOAP API, Restful API Development, OOPs (Object-Oriented Programming), Visual Studio/Visual Studio Code, Git, JIRA, NPM
- Certifications and Trainings** Visa Token Service Technology Jan 2023 AWS APAC Solutions Architecture certified Feb 2023
