## ABOUT ME

Experience .Net Developer with over 3+ years of experience working with C#, SQL and Javascript. Skilled at using Javascript framework like Angular and React.

Contributed to the development and maintenance of several software applications and led Teams successfully to deliver critical projects on time. Looking forward to solving complex development challenges and delivering high-quality, Custom enterprise software solutions.

## WORK EXPERIENCE

### Software Developer

Insource Software Technology Pvt.Ltd

March 2021 To till date

## RELEVANT SKILLS

- .Net Framework
- C#
- ASP.Net
- .Net Core
- HTML
- CSS
- Bootstrap
- Ajax
- Javascript
- jQuery
- MVC5
- ADO.Net
- Angular14
- Entity Framework
- Restful API
- OOPs concepts
- MS SQL Server
- Windows 7 and Later

## EDUCATION

(MCA)-Masters of Computer Application  
(Pune University)

## SYNOPSIS

- Result-driven and customer-focused Web Developer specializing in .Net technologies with over 3.4 years of hands-on experience.
- Proficient in creating robust and scalable web applications, utilizing industry best practices and Delivering high-quality code.
- Seeking opportunities to leverage my expertise in a challenging and dynamic environment.
- Looking forward to solving complex development challenges and delivering high-quality, Custom enterprise software solutions.

## SKILLS SUMMARY

- Seasoned .NET Developer with 3.4 years of experience specializing in **ASP.NET MVC, C#** and **SQL Server**.
- Proficiency in building web applications using **ASP.NET MVC** or **Web API** for creating **RESTful Services**.
- Strong command over **C#**, including knowledge of language features, **LINQ**, asynchronous programming, and memory management. Good Knowledge in various Frameworks like **Data Driven** and **Hybrid Frameworks**.
- Experience in designing and optimizing SQL Server databases, writing complex queries, stored procedures, and database optimization techniques.
- Knowledge of frontend technologies such as **HTML, CSS, JavaScript, Ajax, jQuery, MS SQL** and popular libraries/frameworks like **jQuery, Bootstrap**, or **Angular14**.
- Familiarity with **Entity Framework** or Entity Framework Core for object-relational mapping (ORM) and data access.

## PROFESSIONAL EXPERIENCE.

### Project 1: Project Name: Healthcare Appointment Scheduling System

- **Tools Used:** Frontend: **HTML5, CSS3, Bootstrap, Angular14, Javascript, Ajax**  
Backend: **ASP.Net, MVC5, Entity Framework, C#**
- **Database:** **MS SQL Server, My SQL**
- **Operating System:** **Windows 7 and Later**
- **Project Description:**

The Healthcare Appointment Scheduling System is a web-based application that simplifies the process of booking and managing appointments with medical practitioners. It offers patients a user-friendly interface, real-time availability, and automated reminders.

#### Roles and Responsibilities:

- Developed scalable and maintainable codebase using .Net Core, ASP.Net MVC, and Entity Framework, ensuring high performance and reliability.
- Implemented front-end functionality using HTML5, CSS3, JavaScript, jQuery, and Bootstrap, ensuring a responsive and user-friendly interface.
- Integrated backend services with SQL Server database, implementing efficient data retrieval and storage mechanisms.
- Design Web Pages using HTML, JavaScript, CSS and page design.
- Collaborated with cross-functional teams to gather and analyze requirements and design technical solutions.

### Project 2: Project Name : Fintech Investment Platform

- **Tools Used:** Frontend: **HTML5, CSS3, Bootstrap, Angular 14**,  
Backend: **ASP.NET, Entity Framework, MVC5**
- **Database:** **My SQL 2016**
- **Role:** **Software Developer**
- **Project Description:**

The Fintech Investment Platform is a web-based application that empowers users to invest in a variety of financial assets, including stocks, cryptocurrencies, and mutual funds. The platform provides a user-friendly interface, real-time data, and secure transaction capabilities.

#### Roles and Responsibilities:

- Utilized ASP.NET, VB .NET and Microsoft Visual Studio for development.
- Integrated APIs for enhanced functionality, optimizing user experience and system efficiency.
- Designed and developed user stories based on client requirements using client-side technologies.
- Design and maintain SQL Server database schema, implement data access logic using Entity Framework.
- Collaborate on gathering requirements and developing new features aligned with project goals.
- Participated in making responsive web designs using Bootstrap.
