Professional Summery

Software Developer with 2.3 years of experience in building dynamic and responsive web applications. Proficient in Angular, TypeScript, JavaScript, CSS, Bootstrap, PrimeNG, and Angular Material, with a strong focus on creating user-friendly interfaces. Adept at writing clean, maintainable, and high-quality code, with a proven ability to deliver projects on time. Experienced with Agile methodologies, Git, and Bitbucket for version control and collaborative development. Passionate about learning new technologies and continuously enhancing technical skills to contribute to innovative and impactful projects.

Work Experience

ANG Software | Software Developer

October 2022 - Present

- Optimized Angular CLI configurations to reduce load times and enhance overall application performance.
- Adjusted Visual Studio Code settings to improve efficiency, reduce lag, and speed up development tasks.
- Developed and maintained scalable web applications using Angular, focusing on user-centric functionality and cross-platform compatibility.
- Created user-friendly and responsive interfaces with CSS, Bootstrap, Angular Material, and Prime NG, ensuring a consistent design.
- Performed thorough debugging to enhance performance and ensure high-quality standards.
- Used version control tools like Git to manage code changes, ensuring efficient collaboration and maintaining high-quality standards.

Project

TrueMeds (E-commerce Website)

Role : **Software Developer**

Description:

TrueMeds is a robust e-commerce platform designed to provide a comprehensive range of pharmaceutical and healthcare products. The website allows users to easily browse and purchase medicines, supplements, and personal care items with reliable access to real-time product availability and pricing information. TrueMeds integrates advanced features, such as real-time API data fetching and secure payment gateways, ensuring both performance and security. The platform's architecture supports high user traffic, providing quick load times and smooth navigation, even during peak usage.

Responsibilities:

- Developed and optimized the front-end of the TrueMeds platform using Angular, ensuring a responsive and seamless user experience.
- Implemented reusable components to improve maintainability and scalability of the platform.
- Integrated real-time APIs for accurate product information and availability, enhancing the platform's performance.
- Collaborated with the backend team to ensure smooth data flow and integration of third-party APIs for secure transactions.
- Utilized Angular Router to implement dynamic, smooth navigation across the platform.
- Participated in Agile sprints, contributing to feature development, bug fixes, and timely delivery.
- Worked on optimizing website performance, ensuring fast load times and smooth navigation under high traffic conditions.

Education

Bachelor of Engineering

Dr. Vitthalrao Vikhe Patil College of Engineering

2023 : CGPA - 8.3

Technical Skill

- Programming Languages: JavaScript, TypeScript
- Frameworks: Angular
- UI Frameworks: PrimeNG, Bootstrap, Angular Material
- IDEs: Visual Studio Code
- Web Technologies: HTML5, CSS
- Version Control & Tools: Git, Bitbucket, JIRA
- Methodology: Agile
- Operating System: Windows

Other Skills

- Fluent in English, Hindi language and native language is Marathi.
- Good logical and analytical skills.
- Better in Team Management and communication.
- Problem solving and analytical thinking.
