PROFESSIONAL SUMMARY

Professional Summary: Dynamic Frontend Developer skilled in React.js, JavaScript, HTML, and CSS. Adept at crafting responsive, high-performance user interfaces and integrating frontend with server-side APIs. Capable of quickly mastering new technologies, including Generative AI, contributing to collaborative teams, and enhancing development workflows.

PROJECTS

1. MyNetDiary |  | 

HTML | CSS | JavaScript | React

 - Developed a comprehensive diet-tracking application using React, focusing on personalized diet plans, calorie tracking, and exercise logging.
 - Implemented user-friendly features like barcode scanning and meal planning.
 - Integrated a vast food database to help users monitor and improve their health.
 - Emphasized accuracy and user experience in the design and functionality.
 - Completed this project individually within 2 weeks.
2. Bitrix24 |  | 

HTML | CSS | JavaScript

 - Created an online workspace for sales, marketing, project management, and team collaboration using HTML, CSS, and JavaScript.
 - Integrated features like CRM, task management, document sharing, chat, and video calls.
 - Developed project management and workflow automation features to enhance business operations.
 - Designed customizable dashboards for better remote work support.
 - Built the project individually over 3 weeks, resulting in a comprehensive business platform.
