AB Software Solution

Frontend Developer – Jan 2023 To April 2024

I have worked on HTML , CSS and JavaScript Languages for frontend

CERTIFICATE

Front–End Developer (Envision Computer Tranining Institute , Pune)

PROJECTS

Hotel Elite

Hotel Elite Online Room Reservation is a modern and user–friendly web application designed to streamline the hotel room booking process. The goal is to provide an intuitive interface for users to browse available rooms, view details, and seamlessly make reservations. The application caters to both guests and hotel administrators, ensuring a smooth experience for everyone involved. Skills: HTML5 · HTML · Bootstrap · JavaScript · Cascading Style Sheets (CSS)

SS Masale

SS Masale your go–to online destination for premium and authentic spices! As a frontend developer for this project, my mission is to create an immersive and user–friendly e–commerce platform that enhances the online shopping experience for spice enthusiasts. Skills: HTML5 · HTML · Bootstrap · JavaScript · Cascading Style Sheets (CSS)
