[Link](#)

Python

Flask

HTML5

JavaScript

- Created an online application for downloading videos and audio from YouTube by providing the correct URL.
- Implemented dynamic features to handle video and audio downloads efficiently.
- Solo project completed in seven days with a focus on simplicity and functionality.
- Ensured that the application only supports downloads up to 720p to comply with the free version limitations.

Instagram

Operation

Python

Instaloader

- Developed an application to check Instagram user details, download profile pictures, and fetch the latest 5 posts.
- Implemented features to choose operations and enter user IDs, including handling private accounts.
- Built as a solo project in 5 days.

Experience

Onda B.D.O. | Part-time data entry operator

June 2021 -

September 2022

- Spearheaded meticulous data entry operations, ensuring accuracy and attention to detail in maintaining records.
- Innovated and optimized data processing workflows and contributed collaboratively to diverse table work responsibilities, bolstering overall operational efficiency at the BDO office.
