## CAREER OBJECTIVE:

Highly skilled Full Stack .NET Developer with a proven track record in E-commerce. Possesses strong technical expertise in software development, including proficiency in ASP.NET, C#, and relevant frontend technologies such as HTML, CSS, and JavaScript. Experienced in building robust web applications with a focus on quality and performance. Well-versed in Agile methodologies and adept at utilizing tools like JIRA for project management.

## JOB PROFILE:

Working at JDIT BUSINESS SOLUTIONS PRIVATE Limited as a .NET Developer from January 2022 to present.

## PROJECT DETAILS:

- **Project:** Pharmaceutical ERP
- **Domain:** E-Commerce
- **Type:** Web Application
- **Process:** Agile Methodology
- **Project Description:**

The ERP system I contributed to was custom-built for a pharmaceutical company, serving as a comprehensive solution for managing all operational transactions within the Pune region. It effectively handles a range of critical processes , including inventory management, purchase orders, sales billing, and accounting tasks. Moreover, it facilitates office-related functions, such as voucher entry and financial reporting , ensuring accurate ledger statements and enabling efficient year-end processes. Furthermore, the system incorporates features for managing customer orders and maintaining employee payroll details, providing indispensable support for the company's expansion and organizational efficiency.

## Roles and Responsibilities as .Net Developer:

- Active participation in daily stand-up meetings to discuss project progress and potential roadblocks.
- Proficient in understanding and analyzing project requirements, ensuring clarity and alignment with client expectations.
- Developing high-quality code following best practices and coding standards within the .NET framework.
- Collaborating with the team to convert business requirements into functional software components.
- Implementing unit tests and integration tests to ensure code reliability and maintainability.
- Logging Defects into JIRA.
- Involving in Retrospective meetings.

## **SKILL SETS:**

### **C#:**

- Proficient in C# language features and syntax.
- Solid understanding of implementing object-oriented programming principles and handling exceptions in C#.
- Utilize the Method Overloading, Method Overriding in C#.

### **ASP.NET:**

- Proficient in ASP.NET framework and its various components.
- Expertise in building dynamic web applications and websites using ASP.NET MVC or ASP.NET Core.
- Experience in integrating ASP.NET applications with frontend technologies like HTML, CSS, and JavaScript.

### **Entity Framework:**

- Strong understanding of Entity Framework Core and Entity Framework 6.
- Expertise in creating and managing database models using Code First, Database First, and Model First approaches.
- Familiarity with Entity Framework migrations for managing database schema changes.

### **ASP.NET MVC:**

- Expertise in ASP.NET MVC (Model-View-Controller) framework for building dynamic web applications.
- Proficient in creating and organizing controllers, views, and models in ASP.NET MVC applications.

### **ASP.NET RESTful Web APIs:**

- Proficient in creating and organizing controllers, models, and routes for RESTful Web API endpoints in ASP.NET applications.
- Skilled in using ASP.NET routing to define API endpoints and handle HTTP methods such as GET, POST, PUT, DELETE, etc.

### **LINQ:**

- Experienced in using LINQ to SQL and LINQ to Entities (Entity Framework) for querying relational databases in a strongly-typed manner.
- Knowledgeable in employing LINQ to XML for querying and manipulating XML data efficiently.

### **Front-End Technologies (HTML, CSS, JavaScript, Bootstrap):**

- Proficient in HTML, CSS, JavaScript, and Bootstrap for Advanced Web Development

**Development Tools:** Git, GitHub, Maven

**Database:** SQL Server , Oracle

**Project Management Tools:** VS Code

**Education:**

- Bachelor of Engineering -Savitribai Phule Pune University
