Pune, Maharashtra, India

SUMMARY

I am a **Java Full Stack Developer** with over 2 years of experience specializing in web application development. Proficient in **front-end** and **back-end** development using modern technologies such as **Java**, **Spring Boot**, **MySQL**, and **Angular**, I have successfully built **RESTful APIs** and managed deployments on Apache Tomcat. My collaborative nature enables me to deliver high-quality solutions across various domains, including mooring safety management, finance, healthcare, and developer tools.

EXPERIENCE

Software Engineer

Prismatic Softwares Pvt. Ltd.

06/2023 - Present Pune, Maharashtra, India

- Developed end-to-end web applications using Spring Boot, Angular, and MySQL.
- Designed and developed RESTful APIs for client-server communication.
- Implemented JWT for user authentication and authorization.
- Used MySQL database and Hibernate (JPA) for object-relational mapping to ensure loose coupling between application and database.
- Implemented Spring AOP to create audit trails for tracking and logging user actions and system changes.
- Integrated Microsoft Outlook for email reading and sending functionality.
- Used Swagger for API documentation.
- Used Postman for API testing to ensure functionality and security.
- Deployed applications on Tomcat server.
- Participated in requirement-gathering sessions with clients to understand project needs.
- Participated in requirement gathering and design discussions.
- Used Git and GitHub for version control, collaboration, and code integration.
- Integrated server-side APIs with UI components.
- Implemented dynamic web pages using Angular.
- Created custom validators in Angular to implement input rules.
- Implemented local storage encryption for data privacy and secured routes using AuthGuard from unauthorized access.
- Contributed to UI-UX discussions to meet client requirements.
- Designed responsive user interfaces using HTML, CSS, Media Query, and Bootstrap.

Intern Software Engineer

Prismatic Softwares Pvt. Ltd.

01/2023 - 05/2023 Pune, Maharashtra, India

- Developed web applications using Spring Boot and Angular.
- Participated in requirement gatherings, UI designing, Database designing.
- Developed RESTful APIs.
- Developed and designed UI components using Angular.
- Integrated APIs and bind data to connect UI components with backend services.

EDUCATION

M.Sc.(Computer Science)

MES Abasaheb Garware College of Arts and Science

09/2021 - 06/2023 Pune

KEY ACHIEVEMENTS

Best Employee of the Quarter

Awarded as Best Employee of the Quarter (July 2024 - September 2024) for exceptional performance and significant contributions toward achieving organizational goals.

SKILLS

Java

Spring Boot

MySQL

Hibernate (via JPA)
