SUMMARY

I am a .NET MVC Developer with 2 years and 6 months of experience in building, designing, and maintaining web applications and enterprise solutions. I specialize in **ASP.NET MVC, C#, and SQL Server** and have a solid track record of creating efficient, high-performing applications. My focus has always been on writing clean, maintainable code and following best practices to deliver reliable and scalable solutions.

PROFESSIONAL EXPERIENCE

Software Developer

Anebal Solution Pvt Ltd

📅 2022 - Present 📍 Pune, Maharashtra

Software Solutions is a leading provider of innovative software development services, specializing in delivering customized IT solutions for businesses. Based in Pune, the company focuses on leveraging cutting-edge technologies such as .NET and advanced database management to build scalable and efficient applications.

- Over 2 years 6 Months of Experience working with .NET technologies, including MVC, C#, Web API, ADO.NET, JQuery, SQL Server, CSS, HTML, BOOTSTRAP.
- Extensive experience in Developing web Applications.
- Proficient in the Software Development Life Cycle (SDLC), with hands-on experience in both Development and Testing.
- Worked with SQL Server Database, interacting with the database using MVC, C#, and other Web application frameworks.
- Created SQL stored procedures, functions and queries using SQL Server.
- Strong understanding of ERP Implementation and System Development

PROJECTS

ERP System-(Customized Product)

Responsibilities:

Actively participated in all stages of the **Software Development Life Cycle (SDLC)** to successfully migrate the ERP system to the .NET platform.

Took ownership of complete end-to-end development tasks, ensuring seamless delivery of solutions. Designed and structured databases for various systems to support efficient data management.

Collaborated with clients to gather new requirements, implement changes in existing projects.

- **Description:**
- The ERP system is specifically designed for manufacturing businesses and includes multiple modules such as **Purchase, Sales, Maintenance, Production, Accounting, Engineering, Inventory, Administration, Marketing, Finance, Training, and Human Resources**, among others.
- It features **real-time dashboards** that provide valuable insights, enabling quicker and more accurate decision-making with a clear overview of business operations. Additionally, **role-based access control** ensures secure management by granting users access to specific modules based on their roles and permissions.
