## Education

**Web Development Course**  
Masai  
January 2025-present

**Bachelors of Engineering**  
Chitkara University  
July 2021 - June 2025

**Higher Secondary Education**  
St. Mary's Academy  
April 2020 - April 2021

## Technical Skills

- Python
- QA
- MongoDB
- CSS3
- HTML5
- JavaScript
- java

## Soft Skills

- Adaptability
- Teamwork
- Problem Solving
- Leadership

## Achievements

**Hack the Mountains**  
Chitkara University

## Certifications

- Advanced Web Development**  
Coding Ninjas
- The Art of the Job Interview**  
Big Interview
- Introduction to HTML, CSS, & JavaScript**  
IBM
- Introduction to Cloud Computing**  
Infosys
- Introduction to Cyber Security**  
Cisco Networking Academy

# Istuti Chhabra

## Professional Summary

Aspiring Software Engineer with expertise in Java, React.js, Python, and database management. Experienced in developing full-stack applications, including photo galleries and learning management systems, ensuring high-quality performance and scalability. Strong knowledge of DSA, OOP, and API development, with proven leadership and problem-solving skills.

## Projects

### Learning Management System

[Github Repo](#)  
[Link](#)

Java

- Led the development of a web-based LMS using Java for the backend and React.js for the frontend, ensuring a responsive and engaging user interface.
- Integrated MUX for optimized video streaming and Stripe API for secure payment processing, enhancing platform capabilities.
- Utilized MongoDB to manage course content, user data, and transactions, ensuring data integrity and scalability with API calls for data retrieval.
- Collaborated with cross-functional teams to gather requirements, troubleshoot issues, and deploy updates, maintaining high software quality.
- Conducted thorough testing to ensure reliability and scalability of applications.

### Photo Gallery Website

[Github Repo](#)  
[Link](#)

Java

- Developed a dynamic photo gallery web application using Java for the backend and React.js with HTML/CSS for the frontend.
- Optimized the UI for responsiveness and visual appeal, resulting in a 30% increase in user engagement.
- Implemented MongoDB for efficient storage and retrieval of photo metadata, ensuring smooth user interactions and scalability.
- Ensured seamless integration between frontend and backend using API calls from React to MongoDB.
