

SHUBHAM DOHARE

Senior Software Engineer | Backend Lead

📞 +91 8668437022 | +91 9405104910 @ sdohare11@gmail.com 🔗 linkedin.com/in/shubham-dohare 📍 Maharashtra, India

SUMMARY

Senior Software Engineer with 5+ years of experience in backend development, machine learning, and leading software projects. Skilled in designing scalable systems and delivering innovative solutions that improve efficiency and client outcomes.

EXPERIENCE

Senior Software Engineer

Verantos

📅 06/2023 - Present 📍 Maharashtra, India

A product based company in healthcare

- Designed and implemented an accuracy system for ML models, enabling monitoring the improvement in AI models.
- Designed and implemented a system to create study cohorts and subgroups and improved custom Parser which is the core feature of our application delivering reduced time to generate queries by 5X.
- Designed and implemented event-driven architecture for large dataset processing with the ability to horizontally scale the work and deliver speed improvement of 20X and scale improvement of 10X.
- Designed and implemented multi-tenant architecture for our application.

Software Engineer II

Codevyaasa

📅 09/2021 - 06/2023 📍 Maharashtra, India

A software development company

- Led the development of 8 backend projects as the backend lead engineer, leveraging Node.js to ensure client satisfaction and consistently achieving on-time deliveries.
- Automated CI/CD with Docker and GitHub Actions, Defined and enforced coding guidelines to ensure consistency, maintainability, and high-quality.

Founder & CEO

Infieligh

📅 06/2020 - 09/2021 📍 Maharashtra, India

A product based company

- Micro-habits (Flutter) Available on Android and IOS - based on the book Atomic Habits with 100k+ downloads and 5k+ daily active users.

Software Engineer

Sarvaha Systems

📅 05/2019 - 06/2020 📍 Pune

A software development company

- Worked as a solo front-end engineer using React and SCSS stack, completing the product with positive customer reviews.
- Served as the lead for the front-end team on an Angular/Node.js project.

EDUCATION

Bachelor's in Computer Science Engineering

P.R. Patil College of Engineering

📅 06/2015 - 05/2019 📍 Maharashtra, India

LANGUAGES

English
Proficient

Hindi
Native

KEY ACHIEVEMENTS

LeetCode Problem Solving (<https://leetcode.com/u/sdohare11/>)

Solved over 500 problems, demonstrating strong proficiency in problem-solving, data structures, and algorithms.

Project Delivery and Team Leadership

Successfully developed and delivered multiple projects on time while leading teams and ensuring client satisfaction.

SKILLS

Generative AI Python React

Front-end Javascript Spring Boot

Java Angular AWS Azure NX

CI/CD Deep Learning Socket.io

Docker docker compose Flutter

GCP Git Github Golang

Nix-shell Linux Machine Learning

MongoDB MySQL NodeJS

Sentiment Analysis PostgreSQL

PROJECTS

Sentiment Analysis

Sentiment Analysis using Machine Learning

- Won 1st Prize in College Project Competition with an ML project using Amazon product review comments as a dataset to predict comment sentiment.

One Link

- A project developed using React and Golang to create a single link for Android and Apple stores that redirects users based on their device.

Hacking TCC

- Developed a patch for the TCC compiler, simplifying C programming by enabling automatic struct dereferencing.

Code Type

- A website where programmers can practice typing code faster and remember codes(<https://type-code-ten.vercel.app/>)
