• Sardhar Valbhobhai Patel Highschool, Lonar | Maharashtra State Board Score: 89.80%

EXPERIENCE

- Software Developer** Prisms | July 2023 - Present
• As the Node.js backend team lead, I oversee development of robust APIs for projects like an Insurance Policy Dashboard CRM and a School ERP System, ensuring efficient data management and user-centric functionality.
- Backend Developer Intern** Cyethack Solutions | Feb 2023 - March 2023
• Developed a Backend REST API using Python-Django for network port scanning, leveraging Nmap for efficient and precise scanning operations.
- Software Engineering** Prisms | April 2022 - Oct 2022
• Worked as an ERP software developer using Odoo (Python framework), developing custom modules from scratch and modifying existing ones to meet project requirements.

PROJECTS

- Insurance Policy CRM Dashboard - Wwings** | *Node.Js Project - Prisms*
• <https://app.wwingstech.com/>
• Developed a complete backend system for the advanced CRM Wwings insurance policy dashboard, a SaaS product helping insurance agents manage customers, policies, and more.
- SmartCart Grocery Store Website** | *Python Django Project*
• <https://github.com/ChetanR01/supershopee>
• SmartCart is a grocery store website developed in Python Django
• Developed a grocery store management system with three dashboards: Main Store Website for customers, Admin Dashboard for operations, and Delivery Dashboard for order tracking.
- Student Management System** | *Python Django Project*
• <https://github.com/ChetanR01/student-management-system>
• Developed a comprehensive school ERP system in Python Django to efficiently manage students, staff, and admin with role-based access control and privilege-based functionalities.
- WordSpark-Blog Website** | *Python Django Project*
• <https://github.com/ChetanR01/WordSpark-Blog>
• Developed a responsive blog website in Python Django with categorized blogs, user authentication, and domain-based browsing.
