SUMMARY

- **Developer** with 3.4 years of experience delivering high-performance, scalable systems across **Public Service & Banking** Domain.
- **Proven expertise** in defining technical requirements and creating resilient architectures that meet complex business needs, ensuring alignment with overall goals.
- **Strong leadership skills**, guiding development teams through the full **Software Development Lifecycle (SDLC)** using **Agile/Scrum methodologies**, fostering collaboration, and driving team success.
- Experience in **Java, Spring Boot, MongoDB, MySQL, JavaScript** frameworks including **React.js**.
- Hands-on experience in Front end development using **HTML5, CSS3, Bootstrap, JavaScript, Angular 8**
- **Angular**-Material design, SynFusion-Material design.
- Strong background in **RESTful** APIs, microservices architecture and event-driven architecture to build efficient, scalable solutions.
- Good experience on customized **CSS** Frameworks like Bootstrap & foundation using CSS pre-processor **LESS** and **SASS**.
- Experience working on **Visual Studio, Dreamweaver, Brackets, Sublime Text, Adobe Creative Suite**.
- Experience in **Node** environment using **Node.js**.
- Good Knowledge in usage of version control like **Git**.
- Experience in Agile Scrum Software Development Life Cycle methodology like gathering requirements, Designing, Developing, testing, implementing the backend applications by working in agile atmosphere and have fluent understanding of sprints, iterations, releases, backlogs, etc. tracking tools like Jira.
- Good experience and hands on skill in Selenium and Junit work.
- Hands on experience with versioning tools such as, GitHub, concurrent version system (CVS), subversion (SVN).

SKILLS

- **Frameworks & Libraries:** Spring Boot, Microservices, Angular 16, jQuery, React.js, Node.js.
- **Web Technologies:** Web Services, JSP, HTML, XML, JSON, Bootstrap
- **Databases:** Oracle, MySQL, SQL Server, NoSQL
- **Programming Languages:** Core Java and J2EE, Collections API, Concurrency, JDBC, C#
- **API Development:** RESTful Web Services
- **CI/CD Tools:** JIRA, Confluence, Cloudbees, Jenkins, RLM, Gradle, Hudson, Bamboo, ArgoCD, SonarQube, SonarLint
- **Cloud & Containers:** AWS Services, Docker, Kubernetes, YAML, Ingress
- **Version Control & Configuration:** Git, Bitbucket, CVS, SVN
- **Application Servers:** Apache Tomcat, IBM WebSphere, WebLogic, JBoss
- **Development Environments:** Eclipse, Visual Studio, Atom, Brackets, Dreamweaver, Eclipse, Sublime text

Functional/Business:

- Operation & Production Support
- Strong analytical and problem-solving skills
- Jira, Confluence, Agility
- SDLC, Waterfall, Agile/Scrum methodologies
- Excellent communication and interpersonal skills
- Solution Architecture & Technology Standards

PROFESSIONAL EXPERIENCE

UI Softech

Pvt Ltd

Present Software Developer

Pune

December-2022 to Till Date

Responsibilities

Front-End Development

- Designed and implemented dynamic, fully responsive front-end features using **React.js**, **Bootstrap**, **jQuery**, **HTML5**, **CSS3**, **JavaScript**, **SASS** and **LESS** to enhance user experience and optimize the loan application process.
- Implemented **React.js** within the architecture flow for efficient web page design and functionality.
- Applied **jQuery** for basic animations and end-user screen customization, utilizing Media Queries to address CSS issues across various devices.
- **Performed Document Object Model (DOM) layout management**, **DOM** functions, and **JavaScript** functions to improve interactivity.
- Optimized animation logic with performance-driven functions to enhance rendering speed.

Back-End Development

- Worked on a full-stack web application for a banking system's loan services using **Java**, **Spring Boot**, and **MySQL**, with a strong focus on performance optimization and scalability.
- Integrated **RESTful APIs** and microservices using Spring Boot to manage loan offers and customizable repayment options, ensuring smooth communication between front-end and back-end systems.
- Managed data persistence using **MySQL**, optimizing **SQL** queries to reduce loan offer retrieval time and improve overall performance.

Version Control & Project Management

- Managed version control using Git and Bitbucket, ensuring proper versioning and collaboration on code.
- Utilized JIRA and Confluence for project management, tracking progress, and ensuring proper documentation.
- Collaborated with cross-functional teams, including QA, Product Management, and DevOps, to ensure the timely delivery of sprint tasks.
- CI/CD & Cloud Technologies (Jenkins, AWS, Docker, Kubernetes)
- Leveraged CI/CD pipelines through Jenkins, Gradle, ArgoCD, and GitLab to automate build, test, and deployment processes, reducing time-to-market and improving release quality.
- Utilized AWS services to build and deploy cloud-native applications, ensuring scalability, security, and cost-efficiency.
- Deployed and managed microservices using containerization technologies such as Docker and Kubernetes, ensuring consistent performance across development, testing, and production environments.

Key Technologies

React.js, Bootstrap, jQuery, HTML5, CSS3, JavaScript, MySQL, SQL, PL/SQL, SpringBoot, Java.

Intern-Web Development

D-Tribe

Hyderabad

December-2021 to October-2022

Responsibilities

- Assisted in developing responsive web pages using HTML, CSS, and Bootstrap.
- Implemented interactive UI features using JavaScript and jQuery.
- Gained hands-on experience in front-end web development and design practices.
- Collaborated with the team to improve website usability and user experience.

Key Technologies

HTML, CSS, JavaScript, jQuery, Bootstrap

EDUCATION

Jawaharlal Nehru Technological University Hyderabad

Bachelor of Technology - Computer Science & Engineering

Sep-2022
