Syed Fahad Ali

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dedicated and detail-oriented Full Stack Web Developer with a B.Tech degree and advanced training from Masai School. Experienced in creating dynamic and user-friendly web applications through hands-on projects, including three collaborative projects. Skilled in both front-end and back-end development, with proficiency in Java, HTML, CSS, JavaScript and ReactJS. Known for strong problem-solving abilities, effective teamwork, and a passion for continuous learning. Committed to contributing to innovative projects and growing within a forward-thinking tech company.

PROJECTS

1. Project-LearnWise | |

HTML5 | CSS3 | Bootstrap

- Developed a responsive user interface using HTML5, CSS3, and Bootstrap to ensure fluid layout adjustments across different screen sizes.
- Collaborated with a team of 5 to implement consistent navigation elements like Navbar and Footer, enhancing user experience.
- Integrated dynamic design elements, including image overlays and centered titles, to improve visual appeal and content focus.
- Designed and implemented a responsive Hamburger Menu, enabling seamless navigation on smaller devices.
- Ensured cross-browser compatibility and optimized the user interface for performance and scalability.

2. FWRD.com Website Clone | |

JavaScript | HTML5 | CSS3 | Responsive Web Design

- Collaborated with a team to develop an intuitive and responsive e-commerce platform for high-end fashion.
- Implemented advanced search capabilities and a seamless shopping experience using HTML, CSS, and JavaScript.
- Developed front-end design and key functionalities to enhance user experience and performance.
- Ensured cross-browser compatibility and responsiveness for a consistent look across all devices.
- Contributed to dynamic design features such as a single-page layout, responsive navbar, and image overlays.
