## **OBJECTIVE**

Motivated Full Stack Developer with hands-on experience in both front-end and back-end development, gained through coding bootcamps and personal projects. Proficient in ReactJS, Node.js, Express.js, and MongoDB. Strong problem-solving skills and collaborative abilities, seeking an Associate Full Stack Software Engineer position to contribute to dynamic teams, build high-quality applications, and expand technical expertise.

### **EDUCATION**

## Bachelor of Technology in Mechanical Engineering

Rajiv Gandhi University of Knowledge Technologies, Basar-CGPA: 7.74

2020-2024

## **SKILLS**

Languages JavaScript, Java, HTML5, CSS3, XML

Frameworks React.js, Node.js, Express.js, Bootstrap, Passport.js, jQuery

Databases MongoDB (NoSQL), MySQL (Relational Database)

Tools and Technologies Git, GitHub, Postman, RESTful APIs, JSON, HTTP, Web Services

Concepts Data Structures and Algorithms, Responsive Design, Software Development Lifecycle

SoftSkills Problem-Solving Skills, Collaboration, Communication Skills, Teamwork

#### **EXPERIENCE**

Internship Sep'2024 - Oct' 2024

NullClass – Full Stack Developer

- Developed a Twitter clone with user authentication, real-time notifications, and responsive design.
- Created user interfaces using HTML, CSS, JavaScript, and integrated APIs, increasing user engagement by 15% and reducing page load times by 20%. Utilized RESTful APIs and optimized backend code for better scalability and performance.

#### **PROJECTS**

## YELP CAMP

- Built a real-time campground review platform using Node.js, Express.js, Bootstrap, and Passport.js. Implemented user functionalities for creating, editing, and deleting campgrounds, resulting in a 30% reduction in data integrity issues.
- Enhanced the platform's performance, increasing scalability and improving user experience by 40%.

#### GROUP VIDEO CHAT APP

- Developed a real-time group video chat app using HTML, CSS, JavaScript and integrated WebRTC technology for seamless audio and video communication.
- Optimized application performance, achieving 99.9% uptime and reducing latency by 30%.

## **CERTIFICATIONS**

- The Web Developer Bootcamp 2024 on Udemy, [May 2024].
- SQL and Relational Databases, IBM (Issued by Cognitive Class), [July 2024].
- Java Programming, Intellipaat Academy, [June 2024].
