Maneesh

Email ID: maneeshporwal1991@gmail.com
Contact Number: +91-8630509378

Objectives:

A dynamic professional with 8+ years of experience in software Development. Extensively worked on different application modules in challenging environment and gained experience as a part of team. Achieved Performance edge through hard work and continuous learning.

Snapshot:

- 8+ years of comprehensive experience in software development .
- Proficient in developing web applications using PHP and Python.
- Strong knowledge of Angular for front-end development.
- Experience in database management and My SQL Database.
- Familiar with RESTful API development and integration.
- Solid understanding of Agile methodologies and version control systems (Git).
- Skilled in software design principles and best practices.
- Excellent problem-solving abilities with a focus on performance optimization.
- Familiar with Object Oriented Programming language.
- Ability to work independently as well as in a team environment.
- Self-motivated, strong team player, having good comprehension and analytical skills.
- Ability to rapidly learn new concepts with excellent interpersonal skills and problem solving skills.

Technical Skills:

- Proficient in **PHP** Programming language**, MySql** Database, **Wordpress CMS, Drupal CMS, GitHub,** Python, Django, Angular**.**
- **Codeigniter Framework, Laravel Framework, Rest API.**
- Familiar with **HTML, CSS, Javascript, JQuery, TypeScript, Ajax, PHPMyadmin, Wamp, Xampp.**
- **AWS,RDS**

Experience:

Organization	Role	Duration
Pulp Strategy Communication Pvt. Ltd.	Sr. Software Engineer	June-2021 to till date
Apcell Infotech Pvt. Ltd.	Sr. Software Engineer	March-2019 to June-2021
Laniban Software Pvt. Ltd.	Sr. Software Engineer	Sep-2017 to Feb-2019
Access Technical Solutions Pvt Ltd	Software Engineer	May-2014 to November-2015

Professional Exposure:

Mahindrasusten.com

Role: Software Developer
Client: Mahindra Group
Domain: Renewable Energy / Solar Power

Platform: Web Application

Project details: The project was focused on developing a **web-based platform** for **Mahindra Susten** to provide **solar energy solutions** for both residential and commercial clients. The platform allows users to monitor the performance of their solar panels, track energy generation, consumption, and storage data, while also providing real-time analytics and predictive maintenance for efficient energy usage. The application is integrated with various IoT devices for real-time monitoring and reporting.

Tools and technology used: Drupal CMS, PHP, Html, Javascript, Css, MySql Database, Azure Server.

Roles and Responsibilities:

- Analyze Client Requirements and Technical Design
- Participate in High-Level Design (HLD) Discussions
- Development of Features and Functionality
- Code Reviews and Testing
- Collaborate with QA on Testing Plans and Cases
- Support and Maintenance
- Continuous Improvement

Think-gas.com

Role: Software Developer

Client: Think Gas

Domain: Gas Distribution / Energy Solutions

Platform: Web Application

Project details: The **Think-Gas** platform provides innovative solutions in the **gas distribution** and **energy sector**, focusing on optimizing gas management systems for both residential and commercial clients. The platform allows users to track gas usage, monitor energy consumption, and manage distribution systems in real time. Think-Gas integrates IoT (Internet of Things) devices for **remote monitoring** and provides detailed insights through **data analytics**. The platform supports **multi-user access**, enabling seamless management by different roles within the organization.

Tools and technology used: Angular, WordPress CMS, PHP, Html, Javascript, Css, Rest Api, Github, Aws Server, MySql Database,

Roles and Responsibilities:

- Requirement Analysis and Design
- Web Application Developmen.
- Database Management and API Development.
- Testing and Quality Assurance
- Agile Development and Sprint Planning
- Support and Maintenance
- Continuous Improvement

Waaree.com

Role: Software Developer

Client: Waaree Energies Group

Domain: Renewable Energy / Solar Solutions

Platform: Web Application

Project details: **Waaree** is a leading provider of **solar energy solutions**, specializing in the design, manufacturing, and distribution of **solar panels**, **solar inverters**, and other renewable energy products. The platform offers a **comprehensive suite** to manage solar energy installations, monitor system performance, track energy production, and analyze energy savings. It enables both residential and commercial users to manage their

solar power systems in real time. The application is integrated with **IoT devices** for live monitoring of solar panel performance and energy usage.

Tools and technology used: WordPress CMS, PHP, Html, Javascript, Css, MySql Database, Github

Roles and Responsibilities:

- Requirement Analysis and Technical Design.
- Web Application Development.
- Database Management.
- Testing and Quality Assurance
- Agile Development and Sprint Planning
- Support and Maintenance
- Continuous Improvement

Vanivats.com

Role: Software Developer
Client: Vvani By Vanivats
Domain: E-commerce / Web Solutions
Platform: Web Application

Project details: **Vanivats.com** is an **e-commerce platform** offering a range of products and services across multiple categories, such as **consumer goods**, **fashion**, or **technology**. The platform is designed to provide a seamless **online shopping experience** for customers while incorporating robust **inventory management**, **customer relationship management (CRM)**, and **order processing** systems. Vanivats also offers **personalized recommendations**, and **real-time order tracking**, aiming to provide an exceptional user experience for both B2C and B2B clients. The application supports **multi-user access** and is integrated with various payment gateways and **third-party logistics** services for smooth order fulfillment.

Tools and technology used: WordPress CMS, PHP, Html, Javascript, Css, MySql Database, Github, Hostinger Server

Roles and Responsibilities:

- Requirement Analysis and Technical Design.
- Web Application Development.
- Database Management.
- Testing and Quality Assurance
- Agile Development and Sprint Planning
- Support and Maintenance
- Continuous Improvement

Education:

- MCA(2010-13) from I.T.S affiliated to M.T.U Noida.
- B.Sc.(PCM) from T.D.P.G.College affiliated to C.S.J.M. University Kanpur(U.P) in 2010.
- Intermediate from Ch.V.S.B.V.Inter College affiliated to U.P Board Allahabad in 2007.
- High School from Ch.R.S.Inter College affiliated to U.P Board Allahabad in 2005.

Personal Details:

- Date of Birth: 13/07/1991
- Sex: Male
- Nationality: Indian
- Marital Status: Single
- Language: Hindi, English
