EDUCATION

Software Automation Testing
Masai School
July 2024 - January 2025

Bachelor of Computer Applications (B.C.A)
Dr. D.Y. Patil A.C.S College
September 2021 - May 2024

TECHNICAL SKILLS

Manual testing | Selenium | Cypress | Java | JavaScript | Postman API

SOFT SKILLS

Problem Solving | Attention to Detail | Teamwork | Time Management

INTERESTS

- Learn New Technology
- Learning German Language

PROFESSIONAL SUMMARY

Energetic and meticulous SDET/QA with automation Testing, and PostmanAPI testing expertise. Proven ability to identify algorithmic and logical errors, with proficiency in Javascript. Demonstrates strong problem-solving skills and a collaborative mindset. Capable of leveraging Generative AI and quickly adapting to new technologies.

PROJECTS

1. Manual Forgot Password Project | ⊕ | 🌐
Manual Testing

- Created a detailed test plan and structured test case template.
- Conducted extensive manual testing across various scenarios, browsers, and devices.
- Documented detailed bug reports to facilitate tracking and resolution.
- Significantly improved feature usability and security.

2. Selenium-facebookLoginPage-Demo-Automation | ⊕ | 🌐
Selenium

- Developed automated test scripts using Selenium WebDriver to simulate the user signup process on Facebook's registration page.
- Executed test scenarios to efficiently identify and verify form-filling tasks including name, date of birth, gender, mobile number, and password inputs.
- Implemented efficient locators such as XPath and ID to interact with dynamic web elements and ensure accuracy.
- Utilized the Select class to manage dropdown menus and handled gender selection using List for precise testing.
- Collaborated with development to ensure the seamless functionality of form elements through detailed documentation and effective communication of issues.
-

3. Tool Shop Demo Website Automation | ⊕ | 🌐
JavaScript | Cypress | Git

- Conducted end-to-end testing of checkout functionality using Cypress, ensuring a seamless user experience.
- Collaborated with the development team to understand requirements, ensuring feature completeness.
- Developed and executed detailed test plans and test cases, focusing on algorithmic and logic error detection.
- Documented and reported identified issues with clear steps for reproducibility.
- Showcased understanding of testing methodologies and best practices to enhance platform stability.
