PERSONAL SUMMARY

Enthusiastic software engineer with 8+ years experience participating in the complete product development lifecycle of successfully launched applications. Ability to work independently.

SKILLS

- Java
- RESTful APIs
- PHP
- Mysql
- Postgres
- Elasticserch
- React
- Vue
- RabbitMQ
- Git

EXPERIENCE

Everwell Health Solutions, Bengaluru
- Technical Lead, May 2024 - Current
- Senior Software Engineer, May 2022 - April 2024
- Software Engineer, May 2020 - Apr 2022

- Developed and implemented a robust Facility Management System tailored for health facilities, including clinics that support various stages of patient treatment. The system encompassed managing health facility hierarchies, staff assignments, and user login access for enhanced security and operational efficiency.
- Designed and developed a scalable KPI microservice to provide real-time data points as Key Performance Indicators (KPIs) for seamless integration with external vendors.
- Developed a dynamic form management system on the user interface, enabling configuration-based form creation and customization. This feature allowed users to easily configure and modify forms based on specific needs, enhancing flexibility, reducing manual effort, and improving the overall user experience by offering tailored, context-sensitive forms.
- Led the migration of a monolithic system to a microservices architecture, improving scalability, maintainability, and deployment efficiency.
- Contributed to performance optimization efforts by identifying and resolving system bottlenecks, improving response times, and enhancing overall system efficiency.
- Performed troubleshooting of post-release software faults to support live service and installed software patch design.
- Collaborated with other team members to troubleshoot complex issues and develop solutions.
- Coordinated testing and validation procedures through software development lifecycle.
- Developed and maintained technical documentation for software systems.
- Mentored junior developers on coding best practices and standards.

Quikr India Private Ltd, Bengaluru
- Senior Software Engineer, May 2019 - May 2020
- Software Engineer, May 2017 - April 2019
- Associate Software Engineer, June 2016 - Apr 2017

Quikr Jobs
- Built RESTful Web APIs using play framework
- Developed and maintained scalable software applications for various platforms.
- Investigated production issues reported by users and provided timely resolutions.
- Collaborated with team members to ensure successful project completion within timeline constraints.
- Coordinated with quality assurance teams to ensure software met all testing criteria.
- Collaborated with UI/UX designers to improve software usability and user experience.

Quikr Jobs Pro
- Worked on the end-to-end flows that connect the employers and the consultants through the platform.
- Resolved complex issues related to software applications quickly and effectively.
- Optimized existing software systems for improved performance and scalability.
- Participated in continuous learning opportunities to stay current with emerging technologies.

EDUCATION

Bachelor of Engineering (B. E.), Electronics & Communication (ECE),
R.V. College of Engineering (Autonomous), Bangalore January 2016
GPA: 9.30

PUC
Sir M V P U College, Davanagere India May 2012
Aggregate: 96%

SSLC
Sri Siddaganga Composite High School, Davanagere India May 2010
Aggregate: 97.76%
