Pratyush Sahu
Project Delivery Manager (Business Analyst)

With 9 years of professional experience, including 5 years of outstanding leadership and technical expertise, a results-driven professional with a proven track record across diverse domains, including Ed-tech, IT, real estate, construction, retail, and banking insurance. My career began as a Business Analyst, where I honed ability to gather requirements, create comprehensive documentation, and design wire-frames that transformed complex ideas into actionable solutions. I developed a strong foundation in stakeholder management, bridging the gap between business needs and technical teams. This experience laid the groundwork for my transition into project management, where I have successfully delivered scalable, distributed systems by combining analytical insight with strategic leadership. As a seasoned leader, I remain passionate about driving innovation, delivering measurable outcomes, and fostering success through effective communication and collaboration.

Work History

2023-06 - 2024-10

Project Delivery Manager (PM) & Business Analyst

Oasys Tech Solution Pvt LTD, Bhubaneswar, Odisha

- Contributed to establishing the Product Vision by understanding the market, strategic direction, and positioning the product to outshine competitors while maintaining the vision
- Developed Product Backlog using the INVEST model and CCC, from Epic creation to features and User Stories, including acceptance criteria and Definition of Ready (DOR) documentation
- Actively participated in user story grooming sessions, sprint planning meetings, prioritization, and cascading necessary information on priorities to development team for story point estimation
- Contributed to ceremonies such as daily stand-ups, demos (show and tell), and retrospective meetings to ensure development alignment with product vision
- Reviewed QA test cases, provided feedback, conducted Business Acceptance Testing (BAT) post test case alignment with acceptance criteria, and participated in Go/No Go decisions
- Conducted Business Validation Testing (BVT) post-Smoke Testing
- Established healthy communication and transparency with stakeholders and business users
- Achievements: Managed five modules, handling different exceptions and unique tasks
- Successfully completed two UAT cases on time
