EDUCATION

●● B.E(Computer Science & Engineering) from ch. Shivaji University Kolhapur,in 2020 with(83%)

●● Diploma in Engineering from MSBTE Mumbai in 2017 (76%)

●● 10th from sateri Vidyalaya, Aurangabad in2013 (72.40%)

TECHNICAL SKILLS

●● Programming: C#, .Net core, Web-API (Intermediate), Angular ,Boostrap,HTML Database:

●● MSSQL
*Power Automate

CORE COMPETENCIES

●● Client Management

●● Project Execution

●● Unit Testing & System

●● Agile Development Cycle

●● Software Development

●● Framework (SDF)

●● Implementation & Delivery of Hot Fixes

OBJECTIVE

A result-driven Full Stack. Net Developer offering 2.5 years of experience in designing, developing, and implementing applications and solutions using a range of technologies and programming languages targeting an organization of repute in IT Industry; preferably in PAN India.

PEROSNAL PROFILE

- Proficient software development with executive-level enthusiasm

- An executive-level zealous competent gaining in-depth knowledge in Software Development using .Net platforms.

- Provided insightful knowledge of business process analysis & design; skilled in interacting with end clients to understand workflow & business model and brainstorm feasible solutions.

- Reviewed test cases for conducting Unit & System Integration Testing.

- Using angular16 and azure functions, dataverse developed Clinical Hub project in Critical timelines.

- Gained expertise in Software Programming languages like ASP .NET, MSSQL, Angular, .Net core web-API.

- Worked on Task like Database migration in **DesQuote2.0** project for one of complicated database in SQL server creating migration scripts in sql and migrate database to target server.

- Worked on **CCB** project so understanding of project and worked on bugs like search filters, UI enhancements, correct clients missed data .

- Worked on **PASS** project for implementation of spell check POC were client inputs data for store data without spell or grammar mistakes.

- Understanding of Software Development Lifecycle (SDLC) right from requirement analysis, documentation (functional specifications, technical design), coding and testing (preparation of test cases along with implementation) to maintenance of proposed applications.

- Interacted with the client for requirement gathering; evaluated technical and commercial feasibility of solutions.

- Expertise in the Front-end and Back-end of. NET applications, and related technologies such as databases, web services & user interfaces

- Hands on Robotic Process Automation(Power Automate) for **Bill 2 Doc** and all manual timesheets verification task done automatically.

- Using **POC (spell check implementation, power BI dashboard integration .Net core and Angular Connection to do this tasks)** to demonstrate that the product or concept will fulfill customer requirements; thereby providing a compelling business case for adoption

- Technical expertise **in Power Automate** to perform automation to derive meaning to automation using that achieve cost cutting and efforts aim.

- Environment group and company stress management group.

- An effective leader with excellent communication, negotiation and relationship building skills.

WORK EXPERIENCE

October 2021 – Till Now | Full Stack .Net Developer|InnovaPoint InfoTech Pvt.Ltd. Pune

Key Result Areas:

- Interfacing with clients for gathering business needs.
- Design, develop, test and maintain software applications to meet project requirements.
- Conducting system analysis; finalizing technical / functional specifications, low level design documents, use cases, design documents and build scripts.
- Contributing to design, development, testing, troubleshooting and debugging of software.
- Identifying, analyzing defects & in-consistencies in software program
- Ensuring smooth implementation and testing.
- Providing post-implementation, application maintenance and enhancement support to the client.
- Consistently ensuring technical integrity of project deliverables.

PROJECTS

CCB
- **Used Technology:** C# (.net Framework).

DesQuote2.0
- **Used Technology:** SQL Server.

PASS
- **Used Technology:** Angular, .Net Core.

Bill 2 Doc
- **Used Technology**: Power Automate**.**

Clinical hub
- **Used Technology**: Angular 16, Azure Functions, C# .net core, Dataverse.

**Certifications:

Microsoft Certified: Azure Fundamentals (AZ-900) - Demonstrated understanding of core cloud services and Azure fundamentals, showcasing proficiency in cloud concepts, services, and deployment models."
