Siddharth Shah

8520855595 | Siddharth.shaha08@gmail.com | Masur, Maharashtra

Summary

Dot Net Developer with 1.5 years of experience in development of web-based and windows based applications using .net technologies. Hands on experience in all phases of software development life cycle (SDLC) like Requirement Gathering, analysis, architectural and detail design, documentation, development, testing and implementation using AGILE methodologies like Scrum, XP and test driven environment.

Technical Skills

C#, ASP.NET, ASP.NET MVC, Entity Framework, WEB API, HTML 5, CSS3, JavaScript, Bootstrap, AJAX, JQuery, SQL Server

Technical Tools

VS Studio Code, Visual Studio, Microsoft SQL Server Management Studio , Jira, Github, Postman

Experience

SR Infotech | Pune, Maharashtra
Software Engineer/Web Developer | 11/2022 - Present

- Involved in collecting the requirements from Business Analyst.
- Developed code to perform integration
- Interact with Management to understand the requirements and clarifying the doubts.
- Worked for the user requirements and prepared the software functional activities.
- Involved in designing view pages using Asp.Net MVC.
- Participated in System Specification meetings, analyzed user requirement, coordinated with team members.
- Collaborated with cross-functional teams to design and implement scalable solutions for improving system performance and reliability
- Implemented automated testing processes to ensure code quality and reduce bugs, resulting in a 30% decrease in post-release issues.

Project

Minturn Nut Co Warehouse Application

Time: Nov 2022 to Present

Domain: Warehouse

Description: The development and maintenance of a warehouse management system. This application is built using the ASP.NET MVC frameworks ,WEB API ,Entity Framework with MSSQL as the underlying database First Approach.

Team Size: 9

Roles And Responsibility:-
- Developing MVC Module.
- Developing API using Controller.
- Implementing Repository layer for database operations using Entity Framework in ASP.NET MVC.
- Working on the Dot Net framework, writing everything up using the dependency injection. Involved in analysis and estimating the story points.
- Provide the maintenance to project by solving bug based on tickets.
- Test, maintain and recommend application improvements to ensure strong functionality Involved in developing controller layer for integration logic.
- Developing domain classes which helpful to pass data from one layer to another layer.

Internship at SR Infotech Pune Feb 2022-Aug 2022

• Assist in designing, coding, testing, and maintaining .NET applications.

• Collaborate with the development team to understand project requirements and specifications.

 • Participate in code reviews and provide constructive feedback to improve code quality.

• Debug and troubleshoot issues in existing applications and provide solutions.

 • Contribute to the documentation of software designs, coding standards, and best practices.

Education

Shivaji University | Masur, Maharashtra
Engineering | 11/2020

Languages

English, Hindi, Marathi (Marāṭhī), Gujrati
