As an experienced application developer with a strong foundation in .NET, I bring a proven track record of delivering robust and scalable software solutions. With [3 years] of hands-on experience, I have honed my skills in designing, developing, testing, and maintaining .NET applications that meet and exceed client expectations.

RELEVANT SKILLS

C#	ASP.NET / CORE	ASP.NET MVC / ENTITY FRAMEWORK	API/MICROSERVICE
SQL SERVER	Kendo UI	JAVASCRIPT/JQUERY	HTML5/CSS3/BOOTSTRAP4

PROFESSIONAL EXPERIENCE

Datamatics Global Services Ltd
Senior Application Developer

Jan 2022-Present

- Led the development team as a senior .NET developer on a comprehensive **HRMS (Human Resource Management System)** project.
- Demonstrated proficiency in both front-end and back-end technologies, with a strong emphasis Angular on CSS3, HTML5, jQuery, ASP.NET MVC,MVVM, DOT NET CORE, Entity Framework, and SQL Server.
- Engineered modern and responsive user interfaces usin CSS3, and HTML5 to enhance the user experience.
- Played a pivotal role in integrating various modules of the HRMS project, utilizing ASP.NET MVC for server-side development.
- Ensured smooth communication between front-end and back-end components, allowing for efficient data flow and seamless user interactions.
- Leveraged Entity Framework and SQL Server to design, implement, and optimize the database architecture.
- Implemented performance optimization techniques to enhance the speed and efficiency of the HRMS application.

ECONSIGN SOFT
Junior Software Engineer

DEC 2020-Dec 2021

- As a junior .NET developer, I played a pivotal role in the implementation of the **IAS study** project's user interface. Leveraging my proficiency in HTML5, CSS3, and Bootstrap, I crafted visually appealing and responsive web pages that enhanced the overall user experience.
- In collaboration with the development team, I actively participated in the back-end development using ASP.NET MVC, DOT NET CORE and SQL Server.
- My responsibilities included designing and implementing scalable server-side functionalities, ensuring smooth data flow, and optimizing system performance.
