Summary

Experienced and highly skilled Software Developer with over 2+ years of expertise in designing, developing, and deploying scalable software solutions. Proficient in a wide range of programming languages and technologies, including HTML, CSS, JavaScript, C, Java, and frameworks like Angular. Demonstrated ability to work effectively in both front-end and back-end development, with a strong focus on creating efficient, user-friendly applications.

Skills

Languages-
Core Java, C, C++

Web Technologies -
HTML, CSS, JavaScript

Database -
MySQL

Framework –
Angular, Spring Boot,
Spring MVC,

Tools –
Git, GitHub, AWS(S3)

Experience

Frontend Developer - 10/2023 to 08/2024

iQuippo

Project Name — iQuippo Marketplace

- **User Interface Development:**
  Developed and implemented user interfaces using modern frontend technologies such as HTML, CSS, JavaScript, and frameworks like Angular.

- **Responsive Design:**
  Created responsive designs that provide an optimal user experience across a wide range of devices and screen sizes.
  Utilized CSS frameworks like Bootstrap or Material-UI to ensure consistency and efficiency.

- **Performance Optimization:**
  Optimize web applications for maximum speed and scalability.

Implemented best practices for performance, including lazy loading, code splitting, and efficient asset management.

- **Cross-Browser Compatibility:**
  Ensured the application is compatible with various browsers and platforms.
  Conduct thorough testing and debugging to address browser-specific issues.
- **Version Control and Collaboration:**
  Use version control systems like Git to manage codebase changes and collaborate with other developers.
  Participate in code reviews to maintain code quality and share knowledge with the team.

Software Engineer - 03/2022 to 08/2022

Zensar Technologies Kharadi, Plot # 4, MIDC, Off Nagar Road, Pune 411014

Project Name — PrognoCIS Healthcare Application.

- Cooperate with designers to create clean interfaces and simple, intuitive interactions and experiences.
- Develop project concepts and maintain optimal workflow.
- Work with senior developer to manage large, complex design projects for corporate clients.
- Complete detailed programming and development tasks for front end public and internal websites as well as challenging back-end server code.

Software Engineer - 03/2021 to 02/2022

Claritech Solutions Llp Hinjawadi, Pune 411057

Project Name — E-Filing System

- The main objective of this project is to submit new as well as existing cases to court. Filing cases electronically reduces the cost of filing, eliminating much of the paper handling involved, and allows the courts to function more efficiently.
- Developing reactive pages and unique user interface using Angular.
- Actively participated in client discussions for understanding of requirements.

Education

Bachelor of Technology (2021): Adarsh Institute of Technology and Research Centre, Vita 415311
Diploma (2018) - Adarsh Institute of Technology Polytechnic **-** Vita 415311
SSC (2015) - Vita Highschool Vita 415311
