in abhishek-tiwary-336166221

Education

Web Development Course
Masai School
January 2025-present

Bachelors of Engineering
Chitkara University
September 2021-present

Technical Skills

Java · CSS3 · HTML5 · Node.js · Git · JavaScript · React · Redux · Express.js · MongoDB · RESTful APIs · MongoDB · MySQL · Github · C++

Soft Skills

Problem Solving · Teamwork · Adaptability · Effective Communication · Leadership

Abhishek Tiwary

Full Stack Web Developer

Professional Summary

Dynamic software engineering student expertise in MERN Stack, Java, and C++, specializing in full-stack web development. Proficient in creating seamless integrations and writing efficient RESTful APIs. Demonstrates strong problem-solving skills and a proactive attitude. Capable of leveraging Generative AI to adopt new technologies swiftly.

Projects

AbhiStore [Live Demo Link] [Github Repo Link]

React · Node.js · Express.js · MongoDB · Tailwind CSS · RESTful APIs

- Developed and optimized the backend using Node.js and Express.js.
- Managed user authentication and product browsing functionalities.
- Implemented secure checkout and cart management with total price calculation.

CalFitness [Github Repo Link]

NextJS · Tailwind css · Node.js · Express.js · MongoDB

- Built with Next.js and MongoDB for fast performance and data security.
- Integrated MongoDB for storing and managing user-generated workout plans.
- Designed personalized workout tracking feature with secure user authentication.

CityHop [Github Repo Link]

Next js · Tailwind css · Sanity.io · Node.js

- Developed efficient server-side APIs using Node.js to support blockchain payment integration and ride selection.
- Integrated MetaMask for Ethereum-based payments, ensuring seamless authentication and secure transactions.
- Ensured smooth interaction between frontend map-based ride selection and backend blockchain payment processing.
- Conducted thorough testing and debugging to maintain the application's reliability and stability.
